

Dear Parent(s)

I do hope that you are all safe and well. The sun is out, and I am very pleased to see that Spring may well be poking through the cold of Winter and I welcome that!

We are all very excited about our return to school. Please be assured that everyone has read the current guidance and our risk assessment has been adapted again and I attach it here for your perusal should you wish to look through it. We are working to keep everyone safe and well.

Gentle reminder regarding drop off and pick up arrangements:

Please note that lessons will start promptly at 10.00am and finishes at 1.00pm.

We thank all our families for not entering the school building. Dropping your child off quickly will reduce congestion and contact with others, please remember always wearing masks and please do not gather outside school the grounds.

Medicine, bags, snacks, water etc

Should your child require regular, prescribed medicine to be in school please contact the school office via email for an administration of medicines form. These can be filled out online and then you can let the office know that you will be dropping the medicines off to school.

Mixing and caution

We are taking precautions in school, taking temperatures and regular hand sanitising etc. But I urge you all to remember our wider community, children and our families when you plan your life outside of school. Many of us have vulnerable partners, parents or children. We are all taking time to consider our personal rights alongside our wider responsibilities as citizens. I thank you in advance for this consideration.

Stay safe and well. Thank you again for your continued support.

Yours sincerely

Mrs N Salhi

Head Teacher
